

## INX\_EST\_697 3DS service\_Mobile app

SL.No.	Additional Features	Descriptions	Notes	Client's Comment
<b>AGENCY FEATURES</b>				
1	<b>Search Domestics</b>	The domestic search will be done by entering zip code with auto completion functionality. It will reflect the zip code in the system.	Inheritx development team will do RND on the search domestic by entering zip code.	
2	<b>Domestic Signup</b>	There will be another way to search nearby domestics by the simple input of the zip code in the domestic sign up flow. The agency will be able to put minimum one zip code and maximum 4 zip code.		
3	<b>Customer Registration</b>	There will be customer registration in the agency portal. Agency will be able to input following details of customer: - Name - Contact Number - Email Address - Zip Code	Agency will manually provide the login credentials to the customer.	
4	<b>Customer Mobile Verification</b>	An OTP will be send to the registered number for the mobile number confirmation.		
5	<b>Customer Email Verification</b>	A verification link will be send to the registered email address for the email address verification		
6	<b>Service Request</b>	If the domestic hasn't arrived to the customer's home then agency will be able to assign another temporary domestic for one day.  Customer will get a notification whether domestic has arrived or not. If he clicks twice the "NO" button then in the service request screen, the status will be changed to "Assign another domestic".  The agency will get a notification for the same with two options: - Allocate New Domestic - Deny Agency will manually check the availability of domestics. If he finds another domestic availability then he will click on "Allocate new domestic" otherwise he will click on "Deny" button if there is no availability.		
7	<b>Domestic Account Verification</b>	The domestic account which has been created by the domestic will be verified by the agency only. Domestic will provide his registered contact number and name to the agency. The other details of the domestic will get fetched once the agency enters the domestic registered number in the domestic signup screen.	If agency fails to find the registered number of domestic then he will be able to create new account for the domestic by entering same number.	
8	<b>Agency Login</b>	There will be two login for the agency: - Primary Login - Secondary Login The main agency will be able to do the primary login having full access to view all the details. The other agencies(Manager) will be able to do the secondary login having all access to view all details except payment details.
