## ACADEMIC PROJECT

Duration	Project Details
4 Months	Title: PROCUREMENT MANAGEMENT SYSTEM Tools : visual studio 2008, MS Access

---

## PROJECT DESCRIPTION

1. The procurement management system is a small part of tenders.  
⇒ It gives the two panels ADMIN and USER.
2. Salesforce Data Migration and testing in NBCF.
3. Bond Management System  
⇒ It provides Bonds on materials also provide surety for the same.
4. Foodjin Mobile Application  
⇒ It is a platform that provides Food Ordering Process, manages food orders from customer to cook, cook and delivery partner. In this project, the customer orders any dish from the cook after

preparing dishes. The customer assigns any delivery partner and the delivery partner provides delivery to the customer.

#### 5. Loopkash Web and Mobile Applications

⇒ This Project is used for transferring money from one country to another. There are 2 users which are Customer and Agent, the customer who sends money to an agent of the same country and the agent who sends money to the agent who is located in another country. At last another country agent will provide money to the destination customer.

#### 6. Mom's Planner Mobile Applications

⇒ It is a mobile application, there are some modules available like, calendar, grocery, To do list etc., It is widely used for Moms of new born child. Customer can create an event for daily plan like if she wants to create any dishes for child so it will be creating an folder with ingredients from recipes modules, it will be creating an event for particular plan on daily basis, it will be set alarm on daily basis, another module is calendar, calendar sync facility is available, all events are stored in calendar and it will be remind to mom daily.
