---

### **PROJECT DETAILS**

<b>Project Name /Description</b>	<b>GTS (Global Talent system)</b>  Global Talent Systems is a new targeted SAAS platform for Recruitment Agencies worldwide to be able to quickly communicate with, market to and inform their candidates. The goal behind this system is to enable recruiters to upload a list of candidate emails and easily send pre-curated monthly newsletters with career advice articles with the goal of enticing the candidate to set job alerts so the agency can send targeted job adverts to the candidates. The long-term goal is to get candidates registering fully by uploading their CV so the recruitment agency can take advantage of an automated reverse marketing system so they can get leads for jobs and interested candidates with minimal effort.
	<b>DMS System</b>  It is Mobile base application; Delivery Master Courier Software delivers more than just software. Deliver the technology that boosts efficiency, provides a better customer experience and drives performance
	<b>Ecommerce</b>  It is web base application electronic commerce (ecommerce) content is the material that is created to attract potential customers over an electronic network. Ecommerce content includes tutorials, social media, user-made posts, product descriptions, and blog posts.

	<p><b>POS System</b></p> <p>It is desktop application, operating a retail store calls for a range of administrative, management and marketing skills. From ensuring that there's enough inventory to putting together monthly sales reports, these skills are necessary for your store to run smoothly.</p> <p>A point-of-sale system, or POS, is the place where your customer makes a payment for products or services at your store. Simply put, every time a customer makes a purchase, they're completing a point-of-sale transaction.</p> <p><b>Me Time</b></p> <p>It is Mobile Base Application; It is a video creating &amp; sharing platform that amplifies emerging Indian talent to the world with the main goal of empowering creators to express themselves freely to the community. The platform provides multiple features for its users &amp; creators to create videos easily with exciting new features and most importantly the smoothest user experience. Me Time is truly loved by Indians &amp; one of the first family-friendly video sharing platforms in India.</p>
