PROFESSIONAL SUMMARY

I have completed a bachelor's degree in Information Technology with searching for favorable career opportunities that would assist me in gaining greater practical excellence in the IT and software industry and where I can put my analytical and technical skills to contribute to the growth of the organization

PROFESSIONAL EXPERIENCE

2021 oApps Infotech (3 Months)

Junior software developer

- Responsible for analyzing complex system requirement
- Responsible to test, debug and refine computer software using related tools and methodologies to produce the required product
- Prepare required documentation, including both application and user-level documentation

ACADEMIC PROJECTS

AI Inbuilt Chatbot:

- It is a complete web-based Chatbot that is created using **Python, HTML, CSS, and JavaScript**. A chatbot is used to conduct an online chat conversation via text, in lieu of providing direct contact between a bot and a human agent or user.

FPS Action Game:

- Worked on a project called 3D first-person action game that is created using the unity engine to develop the game and make its core structure. Besides this, we used a blender for animation and used **C#** language for coding the game.
