EXPERIENCE (2 YEARS)

NODE JS - Backend Software Developer

Bigscal Technologies Pvt Ltd.

📅 July 2021 – Dec 2022

- Implemented Node.js backend, improved performance using AWS and 3rd party services (Razorpay, SendGrid).
- Developed Product & service-based projects with GraphQL, TypeScript, NodeJs, Mysql, Javascript, and many more.

NODE JS Intern

Bigscal Technologies Pvt Ltd.

📅 Jan 2021 – Jun 2021

- Developed automated scheduling for email/SMS in Healthray resulting in a 30% decrease in missed appointments & a 27% increase in appointment reminders.

PROJECTS

Healthray (Hospital Management System) - Product Project node js, express js, mysql, aws, razorpay, sendgrid (third-party services)

📅 Jan 2021 – Apr 2022

- Designed AWS-based backend infrastructure to increase data access and reduce admin tasks. Result: 25% increase in appointment reminders and 48% reduction in missed appointments, improving hospital operations and patient experience.

PlenaData Bot (Automation System) - Service Project

typescript, node js, mysql, puppeteer

📅 Apr 2022 – May 2022

- Implemented an automated payment system using Puppeteer, resulting in increased on-time payments and reduced billing errors. Improved efficiency with automated payment confirmation emails.

Twitter Scrap (Scrapping Data System) - Internal Project

node js, express js, mysql, ejs

📅 June 2022 – July 2022

- Developed database system with role-based access for internal web scraping, resulting in 20% increased data security and reduced breaches.

PATH by WALMART (Real estate Management System) - Service Project

node js, express js, mysql, t-sql, aws

📅 Aug 2022 – Oct 2022

EDUCATION

M.Sc in Information Technology

Veer Narmad South Gujarat University

📅 July 2019 – June 2021

B.Sc in Information Technology

Veer Narmad South Gujarat University

📅 July 2016 – June 2019

Class XII in HSC - Science MATHS

Tapovan Vidhyalaya

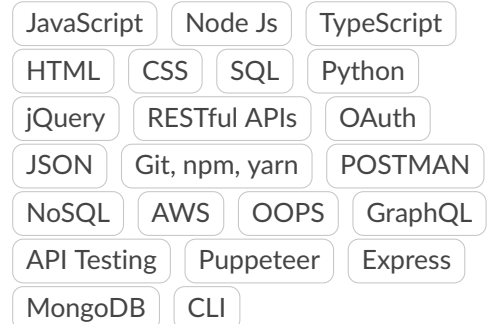

📅 June 2014 – Apr 2016 Per : 79.07%

Class X in SSC

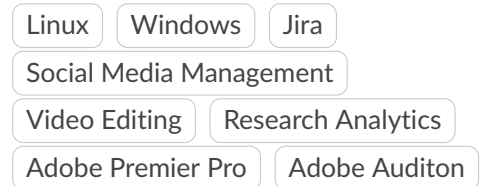

Tapovan Vidhyalaya

📅 June 2013 – Apr 2014 Per : 84.67%

SKILLS

OTHER SKILLS

PARTICIPATION

- Tech Hackathon 2017 & 2019
- Participated in SSIP (Student Startup & Innovation Policy) 2019

CERTIFICATION

- Google Cloud Big Data and Machine Learning Fundamentals - Coursera

- Developed project requirement estimation module with visual representation to improve data-driven decision-making and track progress, leading to improved project performance.

Domino's & HCIN ChatBot by Yellow AI (Chat Bot System) - Service Project

javascript, mysql

 Nov 2022 – Dec 2022

- Developed key modules for Domino's Chatbot, reducing customer complaints and increasing refund processing efficiency. Automated resolution of inquiries through a chatbot. Successfully migrated the HCIN chatbot to an updated platform for improved customer experience.
