Skills

PROGRAMMING

Languages :

• Advance :- Core Java

• Intermediate:- JavaScript

Tools :

• Windows • Eclipse IDE

• Maven • Visual Studio Code

• Spring Tool Suit

Framework Library :

• Spring Boot • Angular • Node

Technologies :

• HTML • CSS • MySQL

• Bootstrap • Servlet & JSP

• API's • JDBC

Vesion Control :

• Git • GitHub

Deployment :

• AWS (EC2 Instance)

Internship

JAVA FULL STACK DEVELOPER

LARA INSTITUTE OF TECHNOLOGIES

April 2022 – Dec 2022

Bangalore, Karnataka, India

I recently completed an internship as a Java full-stack developer at Lara Technologies. During my internship, I have worked on various projects related to developing web applications & API's using Java technologies. I have been able to gain valuable experience in both frontend & backend development, as well as working with databases & other technologies.

INTERN IN WEB DEVELOPMENT

- Developed an online store application using Java Spring Boot. framework that allowed customers to shop for products online.
- Designed and developed the frontend of the application using Angular.JS library.
- Created the backend of the application using the MySQL database for storage of customer data.
- Implemented RESTful APIs with Java Spring Boot to connect the frontend with the backend database.
- Optimised the performance of the application by deploying Apache Tomcat server on an AWS EC2 instance.

Achievements And Certifications

PROGRAMMING

PROBLEM SOLVING WITH LeetCode AND HackerRank

- I am an active member of the LeetCode community and have participated in over 300+ more coding challenges.
- I am actively participating in HackerRank, and I have a Gold badge for Java on HackerRank 2022.
- I received certification from HackerEarth in Java, problem solving, SQL, and AWS.

Recent Project(s)

SIGNUP/LOGIN PAGE | SPRING BOOT | ANGULAR.JS | JAVA | BOOTSTRAP | TYPESCRIPT | HTML | CSS | SPRING SECURITY

INTERNSHIP

Sep 2022 – Nov 2022

Bangalore, Karnataka, India

- Developed a secure web app with CRUD operations, simple login and logout pages, and data security.
- Conducted comparative analysis of different Restful API techniques to optimize performance and user experience.
