SKILLS

React.js

Bootstrap

HTML5

CSS3

Redux

React Router

Material UI

Rest API

Javascript (ES6)

C++

Data Structure and Algorithm

LANGUAGES

English

Full Professional Proficiency

Hindi

Full Professional Proficiency

EDUCATION

Intermediate

Raj English School

03/2012 - 03/2014

Bachelor of Technology

Institute of Engineering and Rural Technology

06/2015 - 06/2019

WORK EXPERIENCE

Software Engineer

Infosys

06/2021 - Present

Achievements/Tasks

- Built and maintained user interfaces for a variety of web applications using React.js and other technologies
- Collaboration with cross-functional teams, including UX designers and back-end developers to deliver high-quality software products
- Implement responsive layouts and optimized performance using techniques such as code splitting and lazy loading

CERTIFICATION

React JS (HackerRank)

This React JS certification covers topic like Rendering elements, Routing, State Management, Handling Events, Form validation and Javascript ES6 etc

PERSONAL PROJECTS

Kaun Banega Crorepati (TV Show based Quiz app)

- Implemented the game mechanics, including sound effects, countdown timer, and multiple-choice questions with escalating difficulty levels.
- Utilized Context API to share data between components without the need for explicit prop drilling, along with useMemo hook to optimize the performance of functional components by memoizing the result of a computation and React Route for managing different game screen.

FlipMart: E-commerce Website

- The FlipMart is a medium sized e-commerce website consisting of approximately different products across multiple categories, built using ReactJS with tools and libraries such as React Router, Redux, MaterialUI etc
- Focused on providing a clean and user friendly interface where users can see Products listing, Product Details, Shopping Cart etc allowing customer to easily navigate through the website and make purchase

ACHIEVEMENTS

Solved 300+ Questions on LeetCode and actively participating in online coding contests

Developed reusable component library using React js, reducing development time and improving consistency across multiple projects

Completed the projects before the deadline and received Insta Rise recognition Award for my work
