### PROJECTS

#### Human Milk Bank System

HTML | React | JavaScript | CSS

- A human milk bank or breast milk bank is a service which collects, screens, processes, and dispensed by prescription human milk donated by nursing mothers who are not biologically related to the recipient infant.
- Modules: Donor Registration, Pasteurization, Culture, Discard, Store, Dispense.

#### Showroom ERP

HTML | React | JavaScript | CSS

- Designed for bike sub dealers to maintain day to day sales and purchase of bikes & spare parts. There are certain modules such as sales, purchase, bike services, dealer, billing, expenses, reports etc. which helps to create a safe bridge between customer and dealer.

#### Maan-Explore

React-js

- Maan Explore is a website dedicated to showcasing and promoting various villages in Maan Taluka. It serves as a virtual platform for travelers and enthusiasts to explore the charm, culture, and beauty of different villages. The website features comprehensive information about each village, including historical background, local attractions, landmarks, traditional practices, and cultural events. Users can navigate through the site to discover hidden gems, read captivating stories, view stunning photographs, and gain insights into the unique aspects of each village.
