**Focused and goal-oriented individual** offering experience in designing & developing applications and rendering support in devising strategies, objectives, vision & roadmap in the areas of technical architecture to enable growth & business agility; targeting assignments as Full- stack Developer, Front- end Developer

### Core Competencies

- Mobile & Web Development Framework
- Design & Solution Architecture
- Process Enhancement/ Performance Tuning
- Project Management & Delivery
- Software Configuration
- Client/Stakeholder Management
- Requirement Gathering & Analysis
- Coding & Debugging
- Technical Analysis

### Soft Skills

- Time Management
- Analytical
- Problem Solving
- Innovator

### Certifications

- Certified MERN MEAN Full Stack Web Developer from Simplilearn in 2023

### Education

- B.Sc. from Shridhar University in 2013

### Previous Projects

- KP Sanghvi Infra App
- eMenu Live Order (Product)
- eMenu Driver (Product)
- Find My Coach (Product)
- Airworld
- Pahadi Sabziwala
- ABC Flashcard
- QARA Consulting
- Fitness On Phone
- Reva Collection

### Personal Details

- **Date of Birth:** 15<sup>th</sup> April 1991
- **Languages Known:** English & Hindi
- **Address:** Hyderabad, India

# MANJU REDDY

## Senior Software Engineer

### Profile Summary

- **Focused & dedicated professional** with over **5** years of experience in **Full Stack Development** including Mobile and Web Application Development
- Created **14+** Fully Functionally Applications for Web Android & IOS Devices
- Excellence in driving cross-functional coordination for understanding requirements of clients & other multiple stakeholders, followed by translation into functional specifications
- Highly skilled in leading all technical aspects of application development lifecycle (including inception, elaboration, construction & transition)
- Proven success in achieving on-time & quality delivery of multiple product releases for clients
- Proficient in exploring various design options in order to arrive at an optimal product or solution
- Possess clear thinking from technology perspective with strong skills to identify functional needs and transform them into technology terms
- Disciplined, technically sound & hard working with excellent planning, analytical, problem-solving and negotiation skills

### Technical Skills

- **Programming Languages:** React Native, React Js, Redux,Recoil, Angular Js,Node Js JavaScript, Html, CSS
- **Development Tools:** Android Studio, Visual Studio, Net Beans, Editplus
- **Database:** Mongo DB, GraphQL, MySQL
- **Operating System:** Ubuntu, Red, Hat Linux, Win XP, 7, 8,10, Mac
- **Cloud Platform:** Amazon Web Services, Google Cloud
- **Other Tools:** Git, Bitbucket, Git Lab, Google Drive, Firebase

### Work Experience

Jul’22- Present | Company | Senior Software Engineer  
Mar’22- Jun’22 | Riser Techub, Pune | ReactNative Developer  
Jun’21- Mar’22 | Seasia Infotech, Mohali | Software Developer  
Apr’18- Jun’21 | Bluelhub | Software Engineer

#### Key Result Areas: (Please confirm the below pointers)

- Interfacing with clients for gathering business needs, analyzing & reviewing business, functional and high-level technical requirements and finalizing technical / functional specifications, HLD and LLD for the project
- Controlling all phases inclusive of scoping, development, integration, deployment, testing, maintenance and production
- Designing detailed technical components utilizing high-level architecture, design patterns and reusable code, considering real time constraints
- Ensuring that best practices for coding, architecture, and security are employed, and maintaining responsibility for the quality development of all applications
- Providing post-implementation, application maintenance and enhancement support to the client with regard to the software application; ensuring all solutions are scalable, extensible & available from architecture stand point
- Rendering technical guidance and leadership to fellow team members in area of expertise; conducting annual performance reviews for team members

### Projects

**MCQ Application for Android & IOS | GIT | React Native, Android Studio, Visual Studio, Redux**

**Rapid Notifier Application for Android & IOS & Web | React Native Expo, Android Studio, Visual Studio, Xcode, Recoil**

**Sosin | git | React, Redux**

#### Key Result Areas:

- Designing, developing, and deploying mobile app using react native technology with Requirement analysis
- Using Native APIs for tight integrations for Android & IOS Platforms
- Maintaining technical documentation to cover all features, functionalities, and wireframes of the app to brief the app usage
- Exploring all latest NPMs in the markets and doing POCs that help building better feature rich apps
- Performing bug- fixing and implementing notifications features
- Working on UI Modifications
