Experienced frontend developer with 1 year of hands-on experience, proficient in React.js, Redux Toolkit, JavaScript (ES6), and TypeScript. Familiar with React native, Next.js, Node.js, Express.js, MongoDB, and MySQL.

Currently seeking a frontend developer role to enhance my frontend skills, broaden my backend knowledge, and acquire expertise in end-to-end software development.

Skills

Technical skills

- **Languages and Frameworks:** ReactJs, Redux toolkit, Redux-Thunk, JavaScript, Typescript, React Native, NextJs, NodeJs, Jest & React Testing Library.
- **Softwares and IDEs:** VSCode, MongoDB compass, MySQL workbench.
- **Operating systems:** Linux & Windows.
- **Version Control:** Git, GitHub.

Work Experience

Surekha Technologies

1. Jr. Software Engineer

Ahmedabad, Gujarat, India

July 2022-Present

1.) Hospital Management System [ReactJs, Redux Toolkit, Clay UI]

- Designed and implemented a visually appealing and **user-friendly health card UI**, enabling efficient patient information management.
- Utilized **Redux Toolkit** to seamlessly integrate APIs, facilitating **smooth data retrieval** and updates.
- Created an interactive and engaging user experience by implementing a **React flipbook** using the **react-pageflip** library.
- Followed **coding best practices** and maintained a high standard of **code quality**, resulting in a **maintainable** and extensible codebase.

2.) E-Commerce React Elasticsearch NPM Package[ReactJs, Elasticsearch]

- Created **dynamic Elasticsearch queries** in React to efficiently retrieve data.
- Customized the UI to match **Figma** design specifications, ensuring a visually cohesive and **intuitive user interface**.
- Implemented a **robust facet filter functionality** to enhance **user** experience by allowing **seamless data filtering** based on specific requirements.

- 3.) **Expense Management System** [React Native]
- Integrated **UI** and created reusable custom components to enhance the user interface and **ensure consistency** throughout the application.
 - Created **dynamic** forms with **add**, **edit**, and **view** modes, providing **seamless** expense management functionality.
 - Integrated APIs to establish **communication** between the **application** and the **backend server** for efficient **data retrieval** and **synchronization**.
 - Implemented a robust **search functionality** based on **name** and **date**, enhancing the user experience by **facilitating quick** and targeted expense data analysis.
 - Conducted thorough **testing** using **Jest** and **React Native Testing Library**, ensuring app **stability** and functionality.
- 4.) **Business Management Portal** [NextJs, Typescript, Tailwind CSS, GraphQL]
- Created reusable components with a **mobile-first and responsive** design approach, following **agile** methodology.
 - Integrated APIs seamlessly using **GraphQL** queries, ensuring **smooth data flow** and efficient communication.
 - Created **dynamic carousels** using **react-slick**.
 - Integrated a feature enabling users to **view attachments in a PDF viewer** and download them, facilitating easy access to important documents.
 - Leveraged TypeScript to enhance **type safety** and maintainability, ensuring a robust and **scalable codebase**.
 - Implemented **unit testing** using Jest and React Testing Library, achieving a **code coverage** of over 75% and validating the reliability and functionality of components and features.

2. Software Engineer Intern

Jan 2022-June 2022

Education

Master of Computer Applications Dharmsinh Desai University, Nadiad, Gujarat	2020-2022
Bachelor of Computer Applications Som-lalit Institute of Computer Applications, Ahmedabad, Gujarat	2017-2020

Interests

- Cricket, Badminton.

Languages

- English, Gujarati, Hindi.
