Noida

### SKILLS

JavaScript

React.js, CSS, Bootstrap

JQuery, Redux, Flux

Node.js, MongoDB, SQL

React Native

### EDUCATION

#### BTech

#### Dr APJ AKTU Lucknow

2016-2020

ECE (74%)

Top 5 percentile of the class

#### Bootcamp

#### Newton School

May 2021 - Nov 2021

Full stack development using MERN

### LANGUAGES

English

Hindi

Urdu

### PROFILE

A Software Developer with 1.5+ years of experience developing innovative software solutions and applications for banking customers. A proven track record of building and diverse development teams throughout phases of Software Development Life Cycle. Capable of coordinating technology projects with cross-functional stakeholders. Proficient in translating design and wireframes into quality codes and writing application interface codes via JavaScript and React.js workflows. Adept at monitoring and maintaining front-end performance and troubleshooting and debugging the same to bolster overall performance.

### WORK EXPERIENCE

#### Software Engineer

Mphasis Limited (Bangalore)

2021- Present

- Identified web-based user interactions and developed responsive user interface components via React
- Monitored and improved front-end performance by 10%
- Code debugging and front-end architecture
- Optimize components for maximum performance across web-capable devices and browsers
- Coordinated with the development team to discuss user interface ideas and applications
- Reviewed application requirements and interface designs to ensure compatibility with exiting applications
- Determined the structure and design of web pages based on user requirements and balanced functional design
- Liaised with cross-functional teams to ensure that the client projects were completed on time
- Employed a variety of languages such as HTML and CSS to write and create user friendly web pages
- Built reusable code for future use and optimized web pages for many applications for maximum speed and scalability

### Certifications & Achivements

- Completed 6 months of full stack development with MERN tech stack at Newton School
- Built creative front-end projects using React like Netflix, Amazon clone and music player
- Projects like to-do list with using back-end development
- Certified in data structure (Udemy)
- Certified in SQL and JavaScript (Percipio)
- UI designing , Application designing
- Front-end architecture, Webpage designing and optimization
- Top 5 percentile of the class at the time of education (graduation)
- Played at collage level (sports) : Volleyball, Cricket and Chess
