### About Me

---

I am a self-trained Mern stack developer with a flair for finding effective solutions within small time period.

Developed an movie web app.

Passionate about learning new skills and adopting new technologies.

Also I've one years of experiences on react.js ,javascript,html,css etc.

### Project Experience

---

#### Adidhi (Job-seeker)

This is a job related web site, for searching hotel,restaurant,cafe job vacancy etc. I have worked in various module of this project like page design,table implimentation,pagination, form validation,etc.

Therefor I got many knowlege and experience from this project with dedicated team,it was developed by using react,typescript,eslint, on front-end side and back-end side developed by using java.

Also it was the first project of my career.

#### Grievance (Government based project)

Grievance is a my second project,also government project.

So I have worked in more than 5 modules. It hepls me to improve design skills,code standard,performance of work,debugging skill etc.

Moreover this project was built by react,javascript,bootstrap,on front-side and java in other side.

Actually it was the major project in my developement career .

### Achievements

---

- New technical knowledge
- Proper communication
- Quick learning
