## PROFILE

Innovative, task driven professional with 4+ years of experience in web development using PHP, MySQL, HTML, and CSS. I have also been working with React JS, which has allowed me to develop interactive and dynamic web applications.

Firm believer in constantly learning new technologies to keep myself up-to-date with the latest trends in the industry. As a result, I have also gained experience working with NodeJS and MongoDB. I am proficient in AWS architecture, which I have used to deploy, scale, and manage web applications. My experience with AWS has allowed me to develop a deep understanding of cloud infrastructure, its various services and Queue Broker like RabbitMQ
