## Projects

### The Successfinder

Team size-6

Duration-15 months

Successfinder is a web that aims to align members and leaders whose background and style are well suited to help you get where you want to go. You'll meet other members, like you, who are here to move workbook theories to real-world experience, to network with others, and lay the groundwork for a career path of your own design.

- Technology - Node.js, MongoDB, Next.js

### PB Direct (Professional beauty direct)

Team size-8

Duration-4 months

Professional beauty direct is an eCommerce platform, where users can buy product from various brands, admin can upload new products for the users and there is a separate panel for the vendor to sell the product, or deliver the product to end-user.

- Technology - Node.js, MongoDB, react.js

### Mob Rummy

Team size-4

Duration-4 months

Mob Rummy is a card game similar to rummy that is typically played with two to six players and uses a standard deck of 52 cards. It is a skill-based game that requires strategic thinking, observation, and decision-making abilities. The objective of the game is to arrange and meld cards into sets and sequences to declare a winning hand.
