

# WEB DEVELOPER

**Sheece Borgi**

Email: [sheeceborgi@gmail.com](mailto:sheeceborgi@gmail.com)

Phone: +91-9768093599

## **SUMMARY**

- *2 years experience in Front End development across multiple projects using React-Redux, HTML5, CSS3, JavaScript, Node.js.*
- *A high level of proficiency and understanding with JavaScript frameworks such as ReactJS.*
- *Good experience in REST API Integration in frontend.*
- *Good understanding of code versioning tools, such as Git.*
- *Good understanding on various debugging tools such as Redux dev tools, React dev tools etc.*
- *Solid understanding of latest features of ES6 JavaScript such as Promises, etc.*

## **SKILLS**

- *Good communication skills.*
- *Good knowledge of JavaScript framework React.js.*
- *Good understanding of MVC Structure.*
- *Good Problem-solving skills.*
- *Well versed with debugging and resolving bugs.*
- *Can work in a team as well as can work as an individual.*
- *Exposure to Agile scrum development such as JIRA.*

**WORK  
EXPERIENCE**

**WEB DEVELOPER | ASTRIKA INFOTECH**  
**JUNE '21 – PRESENT**

<b><u>Project 1: Insurance Application</u></b>	
<i>Client Name</i>	<i>Tokio Marine Indonesia</i>
<i>Duration</i>	<i>1 Year 6 Months</i>
<i>About the Project</i>	<i>This is a Microservice and react-redux web application developed to provide the insurance services for Car and Bike which is based in Indonesia.</i>
<i>Team Size</i>	<i>7 Members</i>
<i>Tech Stack</i>	<i>React-redux, JSON, Rest APIs</i>
<i>Roles &amp; Responsibilities</i>	<p><b><i>Role - FrontEnd Developer</i></b></p> <p><b><i>Responsibilities:</i></b></p> <ul style="list-style-type: none"><li><i>• Developing and implementing highly responsive user interface components using react concepts.</i></li><li><i>• Developing UI specifically for mobile.</i></li><li><i>• Performing Unit tests and Integration tests in the development phase.</i></li><li><i>• Monitoring and improving front-end performance.</i></li><li><i>• Reviewed project specifications and Developed Reusable Components.</i></li><li><i>• Developed UI as per designs</i></li><li><i>• Integrations of Rest APIs</i></li><li><i>• Deployment of code on Development Server for testing</i></li></ul>

**Project 2: Insurance Application**

<i>Client Name</i>	<i>Fairfirst Insurance</i>
<i>Duration</i>	<i>1 Year 1 Month</i>
<i>About the Project</i>	<i>This project is developed in react-redux web application to provide the insurance services for Personal Accident, Home Insurance Services which is based in Sri Lanka</i>
<i>Team Size</i>	<i>8 Members</i>
<i>Tech Stack</i>	<i>React-redux, Netflix OSS, Java Micro services, JSON, Spring, Hibernate, Rest APIs, AWS</i>
<i>Roles &amp; Responsibilities</i>	<p><b>Role – FrontEnd Developer</b></p> <p><b>Responsibilities:</b></p> <ul style="list-style-type: none"><li>• <i>Responsible for creating the UI as per design.</i></li><li>• <i>Responsible for creating functionalities and integrating them into the project as per the documentation.</i></li><li>• <i>Interaction with backend developers to seamlessly integrate APIs in frontend.</i></li><li>• <i>Follow proper documentation for changes in application and further updates.</i></li><li>• <i>Developed Re-Usable Components &amp; UI/UX.</i></li><li>• <i>Integrations of Rest APIs.</i></li><li>• <i>Unit test and integration test after creating new functionality and integrating it into the project.</i></li><li>• <i>Deployment of code on Development Server for testing.</i></li></ul>

**Project 3: Chola Mandalam Insurance Admin Portal**

<i>Client Name</i>	<i>Chola Mandalam</i>
<i>Duration</i>	<i>6 Months</i>
<i>About the Project</i>	<i>This project is used to manage various agents who sells insurance and manage the agents queries through the portal.</i>
<i>Team Size</i>	<i>6 Members</i>
<i>Tech Stack</i>	<i>React-redux, Netflix OSS, Java Micro services, JSON, Spring, Hibernate, Rest APIs, AWS, Jenkins</i>
<i>Roles &amp; Responsibilities</i>	<p><b><i>Role - FrontEnd Developer</i></b></p> <p><b><i>Responsibilities:</i></b></p> <ul style="list-style-type: none"><li><i>• Developing and implementing highly responsive user interface components using react concepts.</i></li><li><i>• Interaction with other developer teams and design team to discuss UI ideas</i></li><li><i>• Follow proper documentation for changes in application and further updates</i></li><li><i>• Developed Re-Usable Components &amp; UI/UX.</i></li><li><i>• Integrations of Rest APIs</i></li></ul>

**Project 4: Education Loan Application**

<i>Client Name</i>	<i>Avanse</i>
<i>Duration</i>	<i>1 Year - Present</i>
<i>About the Project</i>	<i>This Client is a technologically advanced, education-focused NBFC on a mission to provide seamless and affordable education financing for every deserving Indian student.</i>
<i>Team Size</i>	<i>7 Members</i>
<i>Tech Stack</i>	<i>React-redux, Netflix OSS, Java Micro services, JSON, Spring, Hibernate, Rest APIs, AWS</i>
<i>Roles &amp; Responsibilities</i>	<p><b><i>Role - FrontEnd Developer</i></b></p> <p><b><i>Responsibilities:</i></b></p> <ul style="list-style-type: none"><li><i>• Developing and implementing highly responsive user interface components using react concepts.</i></li><li><i>• Develop responsive components in react.js to work in every device.</i></li><li><i>• Integrations of Rest APIs.</i></li><li><i>• Responsible for creating functionalities and integrating them into the project as per the documentation.</i></li><li><i>• Interaction with backend developers to seamlessly integrate APIs in frontend.</i></li><li><i>• Unit test and integration test after creating new functionality and integrating it into the project.</i></li><li><i>• Timely reporting to the Project Manager.</i></li><li><i>• Deployment of code on Development Server for testing.</i></li></ul>

***EDUCATION***

*Bachelor of Computer Engineering, Mumbai University - 2020*

***PERSONAL  
DETAILS***

*Date of Birth: 10/03/1995*

*Language: English, Hindi*

*Marital Status: Married*
