Objective

I am an experienced software developer with 1.6 years of industry experience working with full stack technologies. With expertise in Front End, Back End, System Design, Database Design, Unit Testing and Full Automated Testing, I am an easy-going, easy-to-work-with individual who is always looking to solve problems.

Professional Summary

- Overall, 1.6 years of experience in frontend technologies like **ReactJS, Typescript**.
- 1 year of experience in **Python, Flask, Selenium, Pytest**.
- 1 year of experience in database technologies **MongoDB, Mongo Compass, GraphQL**
- 6 months of experience in **Node.js, JEST, Storybook**.
- Experience in Agile Methodologies.
- 1.5 years of experience in code review, TDD review, test case review.
- Knowledge of **Docker, Git, Jira, Confluence, Splunk SOAR**.

Key Skills

Languages: Python, JavaScript, Typescript, C++

Frameworks: ReactJS, Jest, Storybook, GraphQL, Flask, Node.js

Tools: Docker, MongoDB, Git, Jira, Confluence, Splunk SOAR

Soft skills : Teamwork , Communication, Continuous Learning, Time Management

Experience

Crest Data Systems

Dec, 2021 – Present

Software Engineer

- Participated in a full software development life cycle, from requirement gathering to deployment.
- Took part in code review to maintain high coding standards.
- 1. Worked in **HRMS** Project:
 - a. Handled a management portal with a team of 10+ members in **Python, ReactJS, MongoDB, Node.js, GraphQL, Docker**.
 - b. Collaborated with cross-functional teams to deliver new features and enhancements on time.
 - c. Optimized the business logic and revised the database schema to improve the performance.
- 2. Worked in **SOAR**:
 - a. Worked with a team of 12 members in **Python, Pytest, Splunk SOAR**.
 - b. Using Selenium and Pytest architecture, implemented unit testing for all features of the apps
 - c. Keeping track of the application's failures and bugs reported by the testing pipeline and addressing them as required
 - d. Took part in automation testing process and managed our framework
- 3. Worked in **Splunk Observability**:
 - a. Designed and implemented whole new feature component using react-typescript including unit test cases by jest and storybook
 - b. Worked in client project with 5 members in **React, Typescript, JEST, Storybook**.
- 4. Worked in a **Gitlab MR Analysis Tool**:
 - a. Worked on redesigning of UI for better user experience.
 - b. Worked on code restructuring of whole app
 - c. Worked in internal project with 4 members in **React, Typescript, Gitlab**.

Bisag-N

June,2021 – July, 2021

Intern

- Created a fully functional website for **society management** in **ReactJS, Typescript**.
- Implemented important features such as bill and profile management, admin portal, etc.
- Worked on **MongoDB and Mongo** scripts for data management.

Education

Charotar University of Science and Technology

June, 2018 – June, 2022

Bachelor's of technology in Computer Science and Engineering (CGPA of 9.33 out of 10)
