

Sunil R (Software Engineer)

Experienced in both backend and frontend development, I possess a comprehensive understanding of the requirements involved in delivering successful projects. From conceptualization to implementation, I am proficient in handling every stage of the development process. With a strong dedication to excellence, I am committed to elevating the standards and achieving the goals of any company through my valuable contributions.

EXPERIENCE

Software Engineer

May- 2021 to present

REPOSITAX - (VueJS, NodeJS, MongoDB)

"REPOSITAX" provides market-standard tools for the management of equity holdings in small and medium-sized enterprises. Our first product is a system for storing, sharing, and analyzing tax returns of partnerships with Schedule K-1s (K-1s).

- Chartjs implementations
- Send mail if the PDF file is corrupted.
- Fixing bugs
- Error handling in frontend

NAVADHITI EVENT - (VueJS, NodeJS, MongoDB)

"NAVADHITI EVENT" in a large company, most of the members interact with their project members, not with others. So this tool helps us create events and for every event, we can split team members randomly and they can interact with each other.

- Implemented HR portal to create events and maintenance.
- Implemented event leader and member portal to view their event, etc.
- Implemented Sending mail
- For mobile users, created an app using the Vue web app.

SAMAGRA - (NodeJS, GraphQL, MinIO Bucket)

"SAMAGRA" In a significant step towards leveraging technology to enhance efficiency and manage the implementation of the newly launched Centrally Sponsored Integrated Scheme for School Education, Samagra Shiksha, in which States and UTs may view the Status of GoI Releases, approved outlays, and coverage as per UDISE, school wise list of approvals, school wise gaps, cancellations in approvals, etc. under Samagra Shiksha.

- Generate PDF from GraphQL data.
- Storing PDF on MinIO Bucket
- Error handling

SOCIETAL MUSE- (Reactjs, WordPress)

"SOCIETAL MUSE" is an annual publication that shows stories of solving at scale in action. These are stories of big bold bets of reimagination, of perseverance, of coming together, of building agency through the eyes of practitioners and supporters of Societal Thinking.

- Google Analytics (GA) to track and analyze user behavior on a website.
