1st June – 30th December

- Developed backend micro services on **Node JS** and **Express JS** with **Mongo DB** as data source.
- Understanding of serverless architecture and caching principles.
- Elementary Experience with **AWS EC2** and **Ubuntu Servers**.
- Aware with **Serverless** environment and familiar with **Cors**, **Helmet** and **JWT**.
- Developed features for email and text notifications (bulk) also created Whats App auto responder.
- Implemented Password Securing Technique including with Hash Reset Technique and familiarity with **Bcrypt JS**
- Basic familiarity with payment gateways like **RazorPay**, and **Stripe**
- Also familiar with **Jira** & **Postman** Software for sprint records and testing.

OneBigBit (Intern Node JS Developer)

10th January – 30th May

- Experienced how FS/Promises/Callbacks/Buffer/Blob/Chunk/Streams works
- Basic CRUD operations using Node and MongoDB
- Advanced Level of JavaScript (ES6+)

Official Projects

ERP | CRM | LMS | Tailor Made Software (Online Music/Video Player, Student Assignment Conversion)

Role and Contribution:-

- Designed and implemented scalable, high-performance services using Typescript, Javascript, NodeJS, Express, MSQ/NoSQL.
- Collaborated with cross-functional teams to design, develop, and implement new features.
- Wrote clean, maintainable, and efficient code using industry level practices.
- Debugging and troubleshooting of production issues as they arise.
- Optimizing application performance by identifying and resolving bottlenecks.
- Developing and maintaining APIs to support Php/React/Flutter front-end applications.
- Integrating third-party services (Whats App/ Email/ Text) and APIs into existing applications.
- Creating and maintaining technical documentation related to the application.
- Participated in monthly code reviews and for better/quick coding methodologies.

Education

- **MCA (AKTU University, Lucknow, UP, India)**

(2022-24)

Masters In Computer Application's

- **BA (MCRPV, Bhopal, MP, India)**

(2018-21)

Skills

- **Languages & Technologies**

JavaScript | TypeScript | Flutter | NoSQL (MongoDB) | SQL (MySQL)| Node | React | Express |

- **Software & Tools**

Git/Git Lab | Jira | Windows | macOS | Ubuntu | VS Code | Serverless | Aggregation | Chat GPT | Hosting | Prisma | Mongoose

Certificates

- **Scrum Master in Cloud Kampus**
 - **O-Level (NIELIT)**
 - **Node JS (Udmey)**
 - **JavaScript (Udemy)**
-

Personal Details

- **Father's Name:** Mr. Anurag Kaushik
 - **Current Location:** Chennai, India
 - **Gender:** Male
 - **Nationality:** Indian
 - **LinkedIn:** [Utkarsh Kaushik](#)
