B-Tech  
7.5
- Seetharamaiah College** 2017  
Intermediate  
88.2
- BSR Municipal high school** 2015  
SSC  
8.3

---

## Skills

- JavaScript
- ReactJS
- HTML5
- CSS3
- Core Java
- Springboot
- Microservices
- Kafka
- MongoDB
- SQL

---

## Projects

- Software Development Engineer**  
Roles: Implementing the reactive web pages, debugging the entire application and writing the unit test cases and for the backend I worked with Java and Spring Boot to develop the server-side logic and APIs required for the web application. This includes implementing business logic, integrating with databases, and ensuring the application's overall performance and security.  
Client: Sempra (San Diego Gas and Electric)  
Description: Maintaining the info of every electric pole with coordinates and technician details and some attachment required to poles constructions.  
Results: As a React and Java Spring Boot developer, we designed, developed, and implemented reactive and secured web applications using React.js and the Java Spring Boot framework.
