PERSONAL PROJECTS

Clone of Apple Website

<https://divyansh1506.github.io/CloneOfAppleWebsite.github.io/>

I have created this website on the basis of practice so that I can present my work.

Clone of Disney+ Hotstar

<https://divyansh1506.github.io/Disney.github.io/>

Our clone is very similar to the original Disney plus website. It is only one page(homepage) website. It has navbar and search box with cool click effect same as Disney+. Which was very hard for me to make at first.
