SUMMARY

My name is Harsh and I am a Flutter developer with 3.5 years of experience. I have worked on a variety of projects, including mobile apps, web apps. I am proficient in all aspects of Flutter development, including UI design, state management, and networking. I am also a strong problem solver and I am always looking for new challenges.

In my previous role at Ebizzinfotech, I was responsible for developing and maintaining a Flutter-based mobile app for iOS and Android. I also worked on a web app that used Flutter for the front-end and Node.js for the back-end. I have a strong understanding of Flutter's widgets and APIs, and I am proficient in using Flutter's state management and networking libraries. I am also familiar with version control tools like Git and Subversion, and I am comfortable working in a team environment.

I am seeking a new opportunity where I can use my skills and experience to develop innovative and user-friendly Flutter applications. I am also interested in working on projects that use Flutter for the web or desktop. I am a highly motivated and self-driven individual, and I am confident that I can make a significant contribution to your team.

PERSONAL INFORMATION

Residence: Adajan, Surat, Gujarat

Years of Experience: 3.5

Graduation Year: 2019

Age: 26

Title: Senior Software Engineer

Marital status: Unmarried

Birthdate: 03/08/1997

Graduated From: Gujarat Technological University

Nationality: Indian

Gender: Male

WORK EXPERIENCE

- **EbizzInfotech - March 2020 - June 2021**

Jr. Software Engineer

English: Good

Hindi: Professional

Gujrati: Mother Tongue

PROJECTS

- **QuestionGuru**

Flutter Developer

<https://play.google.com/store/apps/details?id=com.app.questionguru&hl=en&gl=US>

This is the social media application.

Features:-

- Posting Feed
- Asking a Question
- Giving the answer of asked questions
- Follow / un-follow users
- Search (Post, Questions, Answers, Users)
- View (Posts, Questions)
- Like, Unlike, Comment

- Temple & Webster

Flutter Developer

<https://play.google.com/store/apps/details?>

id=au.com.templeandwebster.www.appstore&referrer=utm_source%3Ddesktop%26utm_medium%3Dfooter%26anid%3D

This is a e-commerce application for selling a furniture.

Features:-

- Searching** **Products
- Add To Favorite Product
- Add To Cart
- Filter The Product
- Scanning And Search Like Google Lens
- Tracking The User Inputs and Screen Visits
- Google Pay, Apple Pay
- Adding Comments

- Faamily

Flutter Developer

<https://play.google.com/store/apps/details?id=de.faamly.faamly>

This is the Parents And Kids Application.

The family planner in the app makes it possible to view all family activities at any place and at any time. Ideal also for patchwork families who plan their households and appointments in different places. On the so-called Family Wall, all family members can share their personal photo moments in a protected space - even grandparents far away will be happy about that. The central shopping planner is also practical, allowing everyone to see what is needed for the household and add to the list. With the digital tokens, children can playfully take on tasks, collect points and fulfill small wishes. In this way, they learn that it can be fun to get involved and that their help is valuable. The chaos in the children's room is cleared up almost incidentally - with less nerve-racking discussions.

- nCourage

Flutter Developer

<https://play.google.com/store/apps/details?id=com.getncourage>

You will learn about your anxiety, triggers that can cause it, and gain the courage to actively manage moments of stress for long-lasting relief.

Module One: Understanding Your Anxiety Module Two: Mindfulness Module Three: Biological Interventions Module Four: The Story You Tell Yourself Module Five: Transforming Your Story Module Six: Getting Emotional Traction Module Seven: Navigating Successfully Module Eight: Reducing Worry Module Nine: Inspire Me

You may not think of yourself as courageous, but you will become more empowered to engage life's challenges by doing the thing you think you can not do.

- **McGrath**

Flutter Developer And Code Reviewer

<https://www.mcgrath.com.au/>

This is a agent application for real estate buying and selling a property. Coming soon for both iOS and Android.

McGrath Projects is a specialised division of McGrath Estate Agents, headquartered in Sydney.

The McGrath Projects difference isn't a single value – it's in everything we do. We believe that knowledge and experience are just the beginning – that who we are is equally as important as what we know. Our proven industry expertise and know-how, strategic thinking, attention to detail, innovative marketing solutions and disciplined sales strategies make us one of Australia's most experienced project specialists.

Spanning the Eastern Seaboard including NSW, Queensland, Victoria and the ACT, our dedicated team consistently delivers on new and off-the-plan residential developments and site sales.

Working collaboratively, we also leverage the 110-office-strong network, further enhancing McGrath's commitment to delivering the full customer experience.
