SUMMARY

I am Rakesh Sutariya, a highly skilled Node Js Developer with total 6+ years of professional experience. Throughout my career, I have honed my expertise in working with various APIs across diverse projects. My passion for problem-solving and innovation has led me to create and implement essential features for a range of applications, including taxi products, secure payment APIs, and the seamless integration of third-party APIs for a renowned product.

WORK EXPERIENCE

- KanhaSoft**
2023 - 02 - 22
To
present
NODE JS DEVELOPER
 - I have been working at a service-based company, where my daily responsibilities revolve around managing Azure tickets for various projects. Express node.js, GraphQL, apollo server with typescript are used in project. In which i used mongo DB, socket.io chat services, Twilio SMS service, and Stripe payment gateway. Several middlewares are used in projects such as the express middleware, the cors middleware, and the to many attempts middleware with authentication middleware.
