Projects

Smart library management

Academics project, Created a web application of smart library management system using html , CSS & java

Todo App

Built a responsive Todo app using ReactJS with features including adding, deleting, and updating tasks, and filtering by completion status.

Portfolio

Developed a professional portfolio site using ReactJS and Router to showcase my skills and experience, featuring a responsive design, project descriptions, and a contact form.

TicTacToe

Created a Tic Tac Toe app using ReactJS that includes features such as player turns, winner detection, and game restart, demonstrating proficiency in React state management and component rendering.

Crud App

Built a responsive CRUD app with User management using ReactJS and an API from Postman, enabling users to add, edit, and delete User data while incorporating authentication, validation, and error handling.

Crud App (Redux Toolkit)

Utilized Redux Toolkit to create a powerful data store for a CRUD app built with ReactJS, enabling efficient state management and storage of user-generated data while leveraging middleware and advanced features like Immer and createSlice.

Registration form, Design a registration form (frontend)

Calc, Design an calculator using html , CSS and JavaScript
