PROFILE

I am a web developer who is passionate and looking forward to learn. Deep knowledge of major web techniques like Java , HTML, CSS , bootstrap, JavaScript and React js along with I am also interested in frontend and user interface development.

ACADEMIC PROJECTS:

PORTFOLIO

- Welcome to my project portfolio website! As a dedicated front-end developer, I've crafted this website to showcase my skills and highlight the projects I've worked on. Through this project, I've gained valuable insights into the world of web development, honing my abilities in HTML, CSS, and JavaScript. This journey has provided me with practical knowledge of front-end design principles, responsive web development, and creating engaging user experiences.

YouTube-clone

- This basic layout for a YouTube-like website demonstrates my skills in front-end design. The header and navigation sections provide easy navigation, while the main section showcases a responsive grid of video items. The design focuses on user experience, responsiveness, and visual coherence. Feel free to explore the code and envision the potential for further enhancements and features in this YouTube-inspired design.

SOFT SKILLS

- Effective communication
- Problem Solving
- Team Work
- Open to Learning
- Time Management

STRENGTH

- Collaboration skill
- Logical thinking
- Self Motivated

ACHIEVEMENTS

- Hacker Rank 'Java ' certificate
- Hacker Rank 'Problem solving' certificate
- GreatLearnig ' Java ' certificate
- TCS iON ' TCS iON Career Edge - Young Professional ' certificate
