

Sunil Rathod

FULL STACK DEVELOPER

SUMMARY

I'm a dedicated Node.js developer with a BCA in Information Technology from Gujarat State University. My expertise includes Node.js, Vue.js, JavaScript, SQL, HTML5, and CSS for building robust web applications. I'm skilled in frameworks like Django and databases like MySQL and PostgreSQL.

I prioritize effective client communication and thrive in dynamic environments. Known for my attention to detail and problem-solving abilities, I'm committed to meeting deadlines and value teamwork and adaptability.

I actively contribute to the developer community through blogs and forums. If you need a passionate Node.js developer, let's connect to discuss potential collaboration.

WORK EXPERIENCE

Developer

ALITER BUSINESS SOLUTIONS PRIVATE LIMITED

Jun2022 - PRESENT

In my role as a Gratitude Developer, I've gained 1 year and 4 months of experience. During this time, I handled IoT projects, created dynamic software in 6 months, contributed to ERP software development for 6 months, and managed onsite project

Graduate Trainee

ALITER BUSINESS SOLUTIONS PRIVATE LIMITED

DEC2021-MAY2022

I contributed to the development of Evolve Automation Software version V3 for a period of 6 months, during which I played a key role in assisting with its creation. Additionally, I actively participated in the development of various IOT projects. This experience allowed me to enhance my skills, particularly in areas such as Git, GitLab, and advanced JavaScript.

Intern

ALITER BUSINESS SOLUTIONS PRIVATE LIMITED

SEP2021-NOV2021

During my three-month internship, I gained experience in working with Node.js, Nuxt.js, and Vue.js. I acquired a basic understanding of these technologies and applied them to complete a project. In this project, I also utilized SQL for database management.
