

Vaishali Rawat

Frontend Engineer | JavaScript | HTML | CSS | React JS | Redux (1-year)
(Immediate Joiner)

Using ReactJS, Redux, JavaScript, HTML5, and CSS, I've designed client-facing landing pages for the past year as a software engineering intern. Also beneficial for teamwork, consumer involvement and business conversations.

WORK EXPERIENCE

JavaScript/ReactJS Vidhya Skills School Remote

02/2022 - Present

Bhopal India

It's a next-generation talent school that trains engineers to design high-end platforms and think from the core.

Achievements/Tasks

- Working as a Individual contributor & a team player.
- Learned JavaScript and associated frameworks, such as ReactJS and Redux here for developing strong frontends.
- Participated in design and application discussions with the team to provide input and suggestions, and effectively collaborated with team members to deliver high-quality results.
- Mentored junior developers and provided technical support when needed.
- Working with core engineering team for requirement & technical implementation.
- Collaborated with the design team to ensure the visual design was implemented correctly on the front-end.
- Skilled in Redux, JavaScript, ReactJS, HTML, CSS, TypeScript, GitHub, Jira, Confluence, Draw.io.
- Also worked on problem solving, code optimization, team collaboration and project building, where we created a number of application clones that were published on GitHub.
- Participated in the daily scrum for decision making and project building.

PERSONAL PROJECTS

React-Redux Flipkart

- Implemented a Flipkart Add-to-cart functionality using React and Redux, enabling users to add products to a cart, adjust the quantity, add items to a wishlist, and view product pricing.
- Github Link - <https://github.com/tvaishali12/Redux-Flipkart>

Instagram App

- Implemented a Instagram Post functionality utilizing React JS, including the capability for users to upload filtered images and a captions to a remote server.
- Github Link - <https://github.com/tvaishali12/Insta-App>

Todo App

- Developed a Todo management app using React JS, providing users with the ability to add, delete, and modify Todo items.
- Github Link - <https://github.com/tvaishali12/Todo-App>

Freecharge App

- Developed a Freecharge application utilizing HTML, CSS, and JavaScript which allows users to perform financial transactions such as making payments, checking their bank account balance, viewing transaction history.
- Github Link - <https://github.com/tvaishali12/Free-Charge-Application>

Twitter Clone

- Designed a landing page replica of Twitter utilizing vanilla CSS styles and HTML markup.
- Github Link - <https://github.com/tvaishali12/Twitter-Clone>
