I am a skilled web developer with expertise in the MERN stack. I develop sophisticated, user-centric web applications with elegant front-end interfaces and powerful, scalable back-end systems. I am dedicated to delivering top-tier code quality and seamless user experiences. I thrive in collaborative environments and possess exceptional problem-solving skills. With my proficiency in the MERN stack and extensive web development experience, I am confident in my ability to deliver exceptional results.

## Experience

### ● Front-end(intern) in xipra Technology | 2023 July-2023 Aug

- Proficient in HTML, CSS, and JavaScript, with a focus on crafting responsive and visually appealing web interfaces. Skilled in React.js for building dynamic and interactive web applications. Experienced in frontend development, optimizing user experiences through clean code and modern design principles.

### ● Soulnut (my own startup)|2022 (April - August)

- As the driving force behind our new startup, I'm shaping the company's visionary path, igniting innovation, and forging a united team. I'm nurturing strategic alliances, pioneering market trends, and propelling enduring growth. With unwavering dedication to cultivating a vibrant culture, I'm spearheading the quest to realize our mission and carve an indelible legacy in the industry.

## Projects

### ● Zomato web clone using React.js

[Link](#)

- Technology: React, html, scss
- Front-end uses React-js ,html and scss for styling

### ● URL Shortener

[Link](#)

- Technology: React.js, css, html
- Created shortener app with shrtco api, add long url as e parameter and then we get the shortener url, so simple.

### ● And more
